tary contribution to the jubilee cause. Accompanying it was the following characteristic letter:

Office of F. Auerbach & Bro., Salt Lake City, Utah, April 1, 1897.

Spencer Clawson, Esq., President Pioneer Jubilee Committee, City.

Dear Sir—Our Mr. Samuel H. Auerbach having just returned from New
York, and desiring to aid as much as lies in our power the successful
consummation of the Semi-Centennial Jubilee, we beg to enclose our check
for \$1,000.

We are deeply interested in the success of this thoroughly Utah celebration and trust that the results of your labors may far exceed your most sanguine expectations. Yours very respectfully,

F. AUERBACH & BRO.

MAINTAINING ITS RECORD.

By its contribution the firm retains its reputation, acquired by good deeds for a score or more of years, of being one of the most enterprising the state can beast of. Last year the firm started the Mid-Summer Carnival fund with a subscription for 1500, and expended twice as much more in the decorating of their business house and in the construction of a mammoth float, which was admitted by all to have been about the most interesting in the parades. That the firm will do more this year is a proposition that can in advance be answered in the affirmative.

A merry company of infantile thesplans last night occupied the platform at Unity hall, and the marriage of Mr. Tom Thumb and Miss Lavina Warren was duly and artistically solemnized. The "Forty Young People" who made their debut before the Unitarian footlights took unto themselves as much enjoyment as they would have had in the gay whirl of a merry-go-tound, and they were not the only ones who appreciated it. The audience was not overpoweringly large, but they heard and enjoyed fully the music of child voices, and the miniature entertainment was one that left a very pleasing impression.

went was one that left a very pleasing impression.

All the company were dressed appropriately and with that appearance of affluence and distinction befitting a oridal occasion of such moment. Dot Kelly was a bride who captured more hearts than the little one of Tom Thumb, who was himself a very dignified and important looking gentleman of the old school. The wedding supper was something unsurpassed by anything the half-starved Orlando saw in the Forest of Arden, and it was a very quaint and pretty company in their broadcloth conventionally cut and the blonde and be-powdered perivigs. The child voices floated through the hall sonorously, and there were no symptoms among any of the little ones of stage fright. Toasts were given by the guests of little Tom and his little bride, and there were bouquets, minuets and recitations.

The performance will be given tonight and again on Saturday afternoon. The children who enacted the little play were:

cessions are made, they believe that the withdrawal will be on the part of the president and not the five who have been touched with his official condemnation. The board of regents, to whom Utah's highest institution of learning is looking for succor, will meet in about two weeks. At that time the action of President Talmane, in hewing a large slice from the faculty, will be upheld or condemned.

Resignation of Five of the Faculty Requested

BY PRESIDENT TALMAGE

But the Professors Notified Decline to Step Out.

Result of the Sudden Rupture Will Not Be Known Until the Board of Regents Meets-The Action Caused a Sensation Among the Student Body-Those Asked to Resign Are Professors Toronto, Whiting, Whiteley, Roylance and Miss Brotherhood. .

A breach that smacks somewhat of the sensational has occurred within the last few days in the faculty of the University of Utah, and the result is likely to be a radical change in the personnel of the instructors who now preside over the destinies of the state institution. Dr. James E. Talmage, president of the university, has asked for the resignation of five members of the faculty, several of whom served the institution before M:

Talmage took his seat on the presidential Talmage took his seat on the presidential throne. And thereby hangs a tale. The five members who were summarily notified that their services were no longer resuired have not responded promptly with their resignations. Their response has been an emphatic refusal to release their present positions without notification from the board of regents.

No REASON GIVEN OUT.

No reason for their dismissal is divided by the recalcitrant five for the sudden taboo which has come to them from the president, but it is understood that lack of harmony on several occasions with the presiding officer of the institution is the cause for the unlooked for action. The notification was given the members refuse to disclose at this time the exact nature of the presidential complaint. It is not known what the result of the sudden rupture will be, and the matter is likely to hang fire until the next meeting of the board of regents.

WHO THEY ARE. NO REASON GIVEN OUT.

WHO THEY ARE. The five members upon whom the official axe has fallen are Professors Toronto, Whiting, Whiteley and Roylanes, and Miss Brotherhood. Apparently they do not seem inclined to submit meekly to the mandate of Mr. Taimage, and although they have little to say on the subject, it is hinted that the matter may result in discomfiture to the president himself, so far as securing their retirement is concerned, and therefore their own vindication.

SAY HE IS AUTOCRATIC. SAY HE IS AUTOCRATIC.

According to their statement, the president is autocratic and uncompromising in his expressions to the faculty, and it is balleved that their dismissal is proposed so that he may have men about him who will harmonize with his opinions and adopt his presidential suggestions without opposition. It has been charged that their removal was desired by the president, in order that Gentiles in the faculty might be replaced by Mormons, but this belief does not seem to prevail among the deposed five, and there does not appear to be the slightest ground for it.

President James E. Talmage, when in-terviewed at his residence last night, ex-pressed great surprise upon receiving a reporterial intimation that the white wings of peace and harmony did not rest over the university faculty.

"Has there not been some friction or disagreement among members of the faculty?" was asked.

The doctor looked up with a vast stonishment.

"I know of no such disagreement," he said. "If anything of that nature has occurred, it has not come under my at-tention."

promptly.

"I do not know of any condition such as you mention. I am surprised that such a question should be asked. The fact is that the board of regents shall meet shortly and they will determine as to who will be retained as members of the faculty. The board may, of course, ask for resignations if it sees fit."

Dr. Talmage declined to make any further statement, and implied that the satisfaction of curiosity would only come when the board of regents met to determine the matter.

"Any further statement from me" he said "would be unnecessary and premature."

I do not intend to resign, either, until certain matters come up for comming. I do not intend to resign, either, until certain matters come up for comming. I do not intend to resign, either, until certain matters come up for consideration before the board of regents."

As to the cause of his proposed disminstal, Professor Whitting said that Dr. Talmage had given specific reasons for wishing it, but he did not care, until the time was ripe, to state the nature of his objections. Professor Whitting intimated that he had certain thunderbolts up his sleeve, which he would proceed to hurl when the proper occasion arrived. President Talmage and himself, he said, had been associated together for three years, and he had no disposition to make a statement which would in any way reflect upon the head of the institution. He said that up to the time of his sudden condemnation, his relations with the president had been reasonably amicable.
